

Tennessee Walking Horse Enthusiasts' Association of Montana
HORSE AND HUMAN FIRST AID AND CPR REGISTRATION FORM
 (This course does not result in CPR certification)
 Saturday, February 2, 2019-10:00 a.m. to 3:00 p.m. with lunch break at noon
 Opportunity Resources
 2821 S. Russell Street, Missoula, MT, 59801

FIRST AID and SAFETY for you and your horse can be combined to benefit everyone who rides, packs or owns horses and/or mules. Knowing some basics and learning some tricks from Wilderness Medicine can make you more confident on the trail and help you make good decisions in an emergency. We will share information and "near misses", learn about good first aid practices, go over "**Hands Only CPR**" and practice the skills in scenarios. Know when to act now and when to manage the issues. Come share in the fun of learning together!

Instructor Joan Scheffer: Retired RN: Registered Nurse, Operating Room Certified First Assistant, AEMT (Advanced Emergency Medical Technician), AWLS (Advanced Wilderness Life Support trained) PATH Certified Therapeutic Riding Instructor, Life- long lover of horses.
